About This Game

ANOTHER VISITOR... PLAY A WHILE, GO MAD FOREVER!

*And so you think you will succeed where everybody else has failed. I, **Huenison**, the Evil Master in charge of the conquest of your world, will see to it that you fail miserably.*

Yes, conquest.

Why? Because.

Unfair? Who cares. But enough, I am not wasting further time here. Go away. Or, if you're really serious about it, come down into my deep Mind Control Wells and... die.

WHAT IS THIS?

Huenison is an innovative arcade shooter that takes various elements from **Arkanoid**, **BOH**, **Decathlon**, **Dyna Blaster**,

Impossible Mission, Oil's Well, Pac-Man, Pang, Qix, Slam Tilt, Space Invaders, Tetris, and Vital Light, and puts them together in a hectic mix. All in retro visuals and synthetic sonorities that recall the revered **Commodore 64's SID** chip.

You shoot at falling *bricks* with a *cannon* at the bottom of a *well* (and no, you haven't ever seen anything like this before). Your beams hit bricks only when they are of the *same color*. Hitting a brick produces a *specific effect* depending on the *type of the brick*. Missing bricks will let them accumulate at the bottom of the well, raising the *ground* where the cannon rests - and, on top of that, bringing the *deadly zapper* down, closer to the cannon.

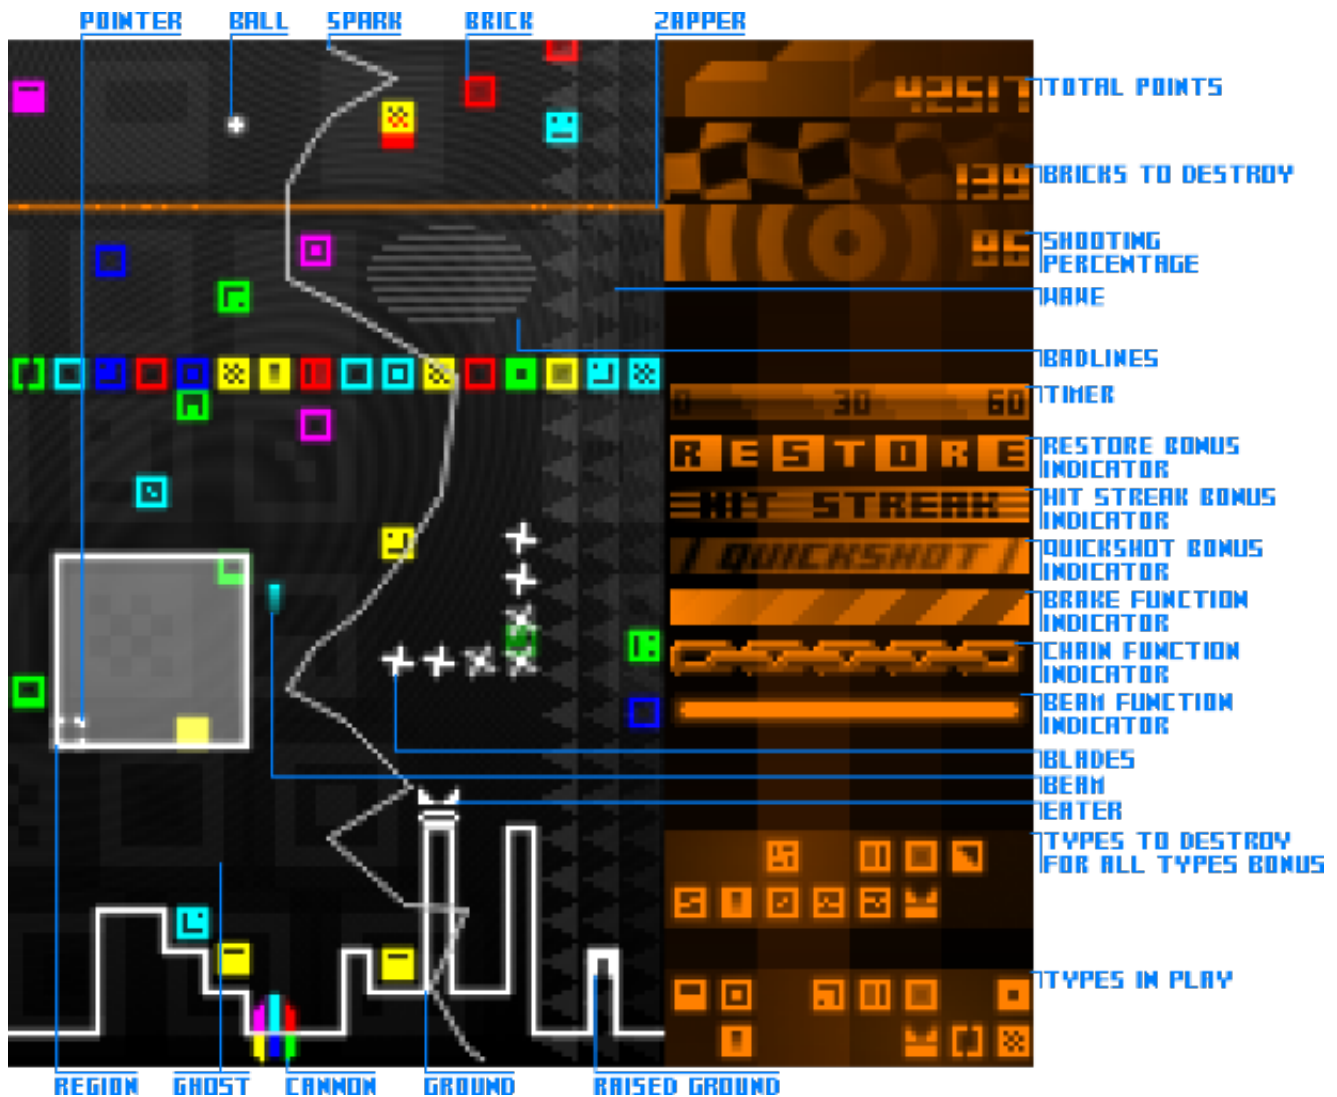

But this is just the beginning: each level plays differently, more and more brick types are introduced along the way, occasional *disturbances* will suddenly bring some more chaos, and lots of *bonuses* will help catch a breath (and score more points)! It's a unique experience that can't be described with words. Just dive into **Huenison's Mind Control Wells**, defeat him, and save the world!

THE SAGA

Huenison is part of a saga that, as of writing, includes five different games.

BOH opens the story, with the **Evil Masters** bringing chaos to **Earth**. **Huenison** focuses on the fight against one of them, the eponymous character. Eventually the Evil Masters were repelled, but, as seen in **QUOD INIT EXIT II**, during their retreat, Huenison and his companions happened to pass by planet **Suinio** and decided to cause trouble there as well. In **MAH**, years later, the danger came from the **Apocalypser**, the weapon that had been developed against the Evil Masters and that the **Purifiers** activated to destroy the Earth. Finally, **KOG** assigns a new task to the hero who turned the Apocalypser off.
