Totally worth the cost, the shiny pots alone seem to be of similar value. An absolute steal if bought on sale.. get it while its on discount ! its a good helper for your journey.. One familiar slows enemies down, three picks up coin, quest items, and event tokens, five familiars open bags won from bosses, and a full crew of six will also auto-click distractions. I have eight now so I also put one on ultimate attacks and one on click damage. Now I don't have to click. (I just level-up). purchased this dlc i got the potions but no familiar and getting hold of customer support is almost impossible
