A: In Jira you need to go to the project and edit the issue template. Look for the button that says "Edit Issue Template" in the top right corner of the issue template. You can do this for all issues or only for the one in question. There should be a link to "issue template X" as well. The easiest way is to go through the book or use the online options listed in your question. The two online options are: Learning Jira Through Training - A free online course from Atlassian. Jira Training from JIRA Guru. This course comes with a free trial. Q: Did the perquisites of the Executive Order (1917) been the source of a great point of contention? The United States issued Executive Order #8135, on April 27, 1917, on going to war with Germany. The order was as follows: All persons belonging to any class, national, political, or religious shall be excluded from any employment by the United States or in any bureau or agency thereof, in the service of the United States or of any State or Territory of the United States, or of the District of Columbia, or any political subdivision or municipal corporation therein or any corporation owned or controlled by any foreign government, or of any corporation engaged in any warfare against the United States. The order was signed by President Woodrow Wilson on April 27, 1917. We often see today the quotation "No president has done more to win the World War, than the man who signed that Order". The order was a direct precursor of the War Department Orders of 1918. Did the perquisites of the Executive Order (1917) been the source of a great point of contention? For example: Who could be excluded? If anyone could be excluded, how could the exclusions be enforced? Was the order a simple "take a job or lose your job" order? What was the legal standing of the order? Who could be excluded? This was resolved in the United States during World War I. See Exclusion from Work by Aliens During World War I If anyone could be excluded, how could the exclusions be enforced? Enforcement was of the individual and a minor issue. Someone not wanted could face a summons before a judge who could then decide whether to exclude the person from 82157476af
